

Milk Recording

Milk Recording helps make informed decisions about future herd performance, from feeding to breeding.

The CIS offer a number of packages from a simple DIY system to a full milk recorder service, with reports supplied within 48hrs after sample receipt.

Milk recorders visit farms on a regular basis to take samples, deliver them to the laboratory and upload the results online, send by email or post.

CIS Milk Recording package includes:-

- Routine testing of all individual in milk cows for lactose levels as well as butterfat, protein and SCC.
- Test quarterly, monthly, 6 or 8 weekly with or without a recorder.
- SMS alert to mobile when results results are published online.
- Paper reports are available by first class post.
- If required, a set of duplicate reports for on-farm use.
- Access to web-based YourHerd or MobileHerd App to view results immediately.
- The YourHerd web service is available as a full management system for your herd.
- Electronic data file links to update farm and vet software.
- Links to pedigree breed societies and BCMS.
- Assess and monitor Johne's, BVD, IBR and Lepto.

Paperless packages are available offering further savings and efficiencies for your business.
