

# Milk Recording

**Milk Recording helps make informed decisions about future herd performance, from feeding to breeding.**

The CIS offer a number of packages from a simple DIY system to a full milk recorder service at an interval to suit all needs.

Our aim is to have the results available within 48hrs of sample receipt, an alert is sent as soon as the results are processed.

## CIS Milk Recording package includes:-

- Routine testing of all individual in-milk cows for lactose levels as well as butterfat, protein, urea and SCC.
- Test quarterly, monthly, 6 or 8 weekly with or without a recorder.
- SMS and email alerts when results are processed.
- Paper reports are available by first class post.
- If required, a set of duplicate reports for on-farm can be posted or downloaded from YourHerd online portal.
- Access to the secure web-based YourHerd portal or MobileHerd app.
- The YourHerd web service is available as a full management system for your herd.
- Electronic data file links to update farm and vet software.
- Links to pedigree Breed Societies and BCMS.
- Assess and monitor Johne's, BVD Ab, BVD Ag, IBR Ab, IBR gE Ab, Lepto, Neospora and Liverfluke.

*Paperless packages are available offering further savings and efficiencies for your business.*
