Welcome

The Cattle Information Service (CIS) offer a range of services providing data to make informed decisions about current and future herd performance. Involving all the leading cattle organisations, the objective is to improve standards of service, accuracy and value throughout all herd management information practices focused on breeding, health, management, profit and service.

CIS is the largest-growing milk recording organisation in the UK. The business has been built on cost effectiveness, a fast turnaround and an award-winning website providing instant easy to use results.

CIS Laboratory

Analysis is performed at the privately owned CIS Laboratory in Telford, Shropshire. This testing facility, under its robust Quality Management System, is UKAS accredited to ISO/IEC 17025:2017 operating 7 days a week.

7851

Services

CIS analyse milk, blood or tissue samples to provide insight for farmers, vets and nutritionists on livestock performance supported by a field services team and laboratory.
